

Visitor visa (subclass 600)

Tourist stream application checklist - CHINA

You need to provide documents to support your application for this visa. We can make a decision solely on the basis of the information you provide when you lodge your application. It is in your interest to provide as much information as possible with your application.

- We strongly encourage you to lodge your application online via [ImmiAccount](#) as you can create, submit, pay for and manage your visa application online. Lodging online also helps us streamline visa processing arrangements.
- If you are unable to lodge your application online, you can lodge your completed paper application at an Australian Visa Application Centre (AVAC).

If you are applying online, use the checklist below as a guide to prepare your documents and follow the checklist at the end of the online application form. Scan the original of each document in colour. If a document has multiple pages, include all pages in one file instead of separate files. If you attach poor quality scanned documents this may lead to delays or the refusal of your application.

If you are applying at an AVAC, use the checklist below as a guide to prepare your documents and attach it to your paper application. Provide colour copies of original documents.

Important:

- Do not include original documents unless we specifically ask for them.
- Documents not in English must be accompanied by an English translation.
- Please provide an email address on the application form as this is the easiest way to communicate with you.
