

To great acclaim in 2011 Warburton Community brought the 土地-身体 *Tu Di - Shen Ti / Our Land, Our Body. Master works from the Warburton Collection* to seven major museums in Eastern China, where it was seen by over a quarter of a million Chinese people and formed one of the key events for the *Year of Australian Culture in China, Imagine Australia* in 2011.

Following this highly successful tour Warburton Ranges is bringing *Tu Di Shen Ti* to a further eight museums across Western China in 2013 - 2014.

Produced by the Warburton Arts Project *Tu Di Shen Ti* will again be presented in the context of an indigenous cultural space acknowledging Western Desert people and their world. Genealogies, narrative text, photographs taken by indigenous school children, a 20 channel digital immersive environmental soundscape, data projected and multiple screen installations are important parts of the exhibition. The finest artworks from the Warburton Collection will be displayed in a powerful, communicative installation format to create significant inter-cultural occasions for Chinese and international visitors. Four art glass installations and eight large textiles will be added to the 2013 tour and it will be supported by a new, fully translated colour catalogue.

Rio Tinto is proud to be the Major Sponsor for the Warburton *Tu Di - Shen Ti / Our Land, Our Body. 2013-14 Tour of Western China.*
